Additional descriptive comments on figurative or decorative portion of the exterior:

Fragment is of a little hand that was ~~probably~~ probably applied across the belly of a larger object. Hand is probably the figure's left hand & does have a little thumb. Probably has four other little fingers, but it's too eroded to be able to count for sure. Overall shape of hand is like that of a mitten w/ the fingers outlined w/ incised lines.

The item is: not eroded - slightly - moderately - very - extremely eroded.

It has: does not have other damage. Describe:

Not drawn - drawn. Where?

Comments: Munsell: 7.5YR 5.5/6
